Dining, Drink, Parties

Famed for its breathtaking 360-degree view at the peak of 282 metres, 1-Altitude in Singapore looks set to reach new heights in the party scene with Altimate, *Singapore's* premier ultra-lounge club that will join the likes of 1-Altitude Gallery & Bar and Stellar.

Located on the 61st floor at One Raffles Place, the exclusive nightspot opens daily from 10pm to 4am. And apart from the already spectacular view, guests can expect a memorable experience at the 5,000 square metre club. Altimate is home to acclaimed international designer Ed Poole's specially *designed furniture* and decor, including seven elevated booths, and will host up to 250 guests for larger-scale events.

With elevated booths, expect an unobstructed view of the city skyline.

The first to introduce a pioneering multi-sensory digital platform, Altimate's sleek interiors will feature bespoke digital *installations* to large format video walls and state-of-the-art three-dimensional projection mapping.

Additionally, what is a club without both drinks and music? Altimate boasts a *premium cocktail* list with signature concoctions and exclusive creations crafted especially for its patrons. A hearty selection of canapes and spreads are also available.

Finally, adding the finishing touches to what is already promising to be an amazing experience would be the men behind the consoles. DJs Funkman, Leonard T (former resident in Zouk KL), Tony Tay and Clifford will provide the soundtrack of night. The resident DJs, all renowned in their own right will occasionally collaborate to ensure that a night in Altimate is a night worth remembering.
